

I have known Karen Earl, IIDA as a friend and professional colleague for twenty years. We met when I moved to Seattle during which time she was the president of the Northwest Pacific Chapter of IIDA (International Interior Design Association). Karen is not only admired for her creativity and professionalism but for her commitment to advancing the profession of interior design through her continual work with IDEC (Interior Design and Educators Council), IIDA and CIDA (Council of Interior Design Accreditation).

Gary Henderson, IIDA
President Henderson Kelly Inc.
